

CLOUD BACKUP

Part of the Cloud product family

The Service

A fully managed, online backup solution to safeguard your data securely, offsite. If your data is lost, the backup can be accessed and the data can be restored. This service offers the flexibility to back up as little or as much as necessary, one file, a specific application or anything in between.

PCS are ISO27001 certified, our centres provide a 99.999% uptime guarantee and 24/7/365 physical security.

The Features

Local speed vault

Back up + recover anywhere

Risk analysis
