

# CONSULTANT

Part of the Consult product family

## The Service

A cost effective way of having your own IT Manager, or adding expertise to your current IT team. Our consultants are highly experienced in IT systems and the benefits that they can bring to your business.

With a dedicated person, our consultants will get to know your company, how you trade + how your team use IT and will tailor an IT strategy to your business. Working with you and your expectations is key to ensuring effective expenditure, performance and contingency planning.
