

# CYBER SECURITY

Part of the Consult product family

## The Service

There is no such thing as a perfect protection. However, when it comes to cyber security, you can mitigate risk by employing our services. We analyse, assess, report, make recommendations + implement stronger policies.

We will assist you in choosing the right services to adequately demonstrate good practices in safeguarding + handling sensitive data. In turn, you can show that the risks have been addressed in relation to the General Data Protection Regulation (GDPR), which became law in May 2018.

## The Features

**Analyse IT infrastructure + set robust cyber security policies**

**Satisfy over 60 cyber security requirements**

**Implement strong cyber security practices**

**Achieve Cyber Essentials certification**

**Ongoing support available**

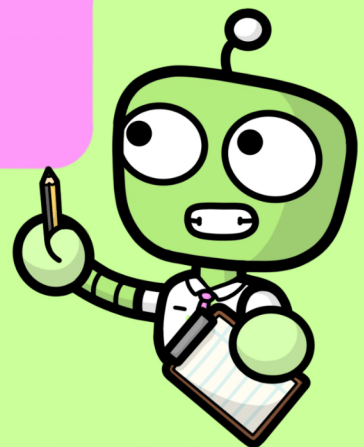

## The Benefits

**Reduce risk of a cyber based security breach**

**Employ the services of experienced IT specialists**

**Demonstrate robust cyber security practices to external parties**

**We hold ISO27001 + Cyber Essentials certification**

ISO 9001
